Softener Shield Salt

**SOLAR COARSE CRYSTALS
WITH RUST REMOVER**

For Use In All
Water Softeners

Hi Purity Solar Coarse Crystals is an solar coarse-grade salt formed by the natural evaporation of water by the wind and sun. The natural salt crystals possess a unique chemical quality and are sized for maximum percolation in water softening applications. Hi Purity Solar Coarse Crystals eliminates mushing, bridging or channeling under normal conditions. Hi Purity Solar Coarse Crystals turns hard water soft resulting in cleaner water for drinking, bathing and cleansing.

NET WT. 40lb (18.1 kg.)
